NOTES

hello! To make these as big as possible print on 8.5x11 paper. The cut lines have been added as a guide for younger kids who are not able to cut directly on the illustration line. This helps give a little "wiggle room." I have included a name tag for your little baker(s). You can also have a tea party, or picnic using the cupcakes!

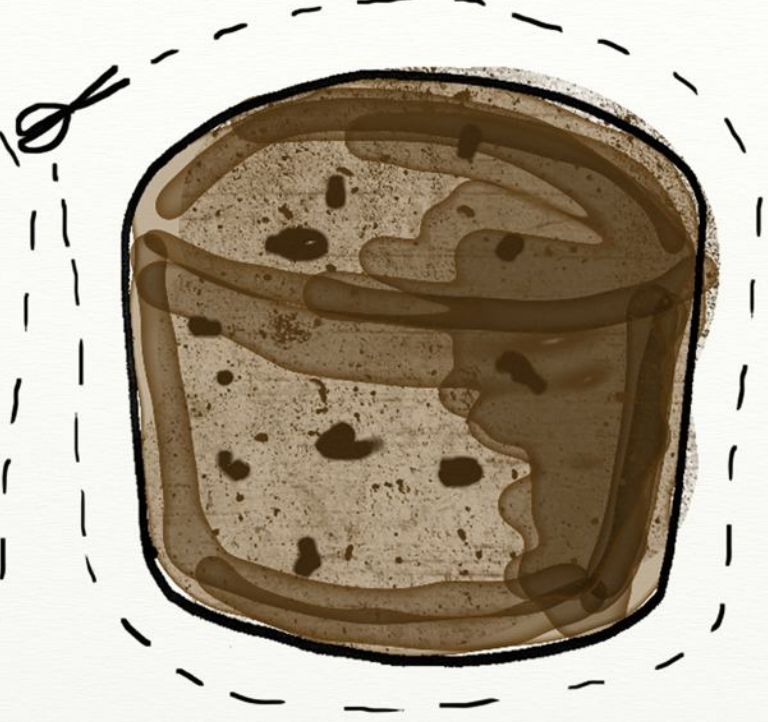

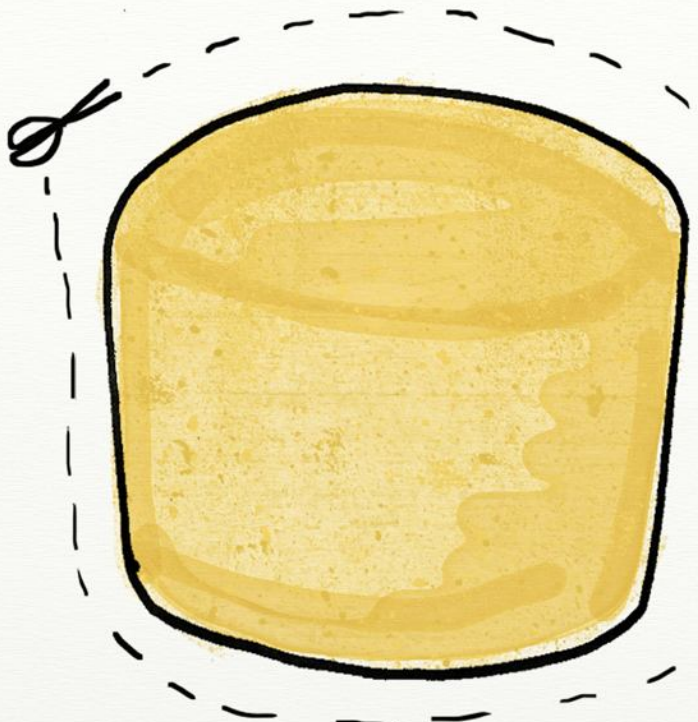

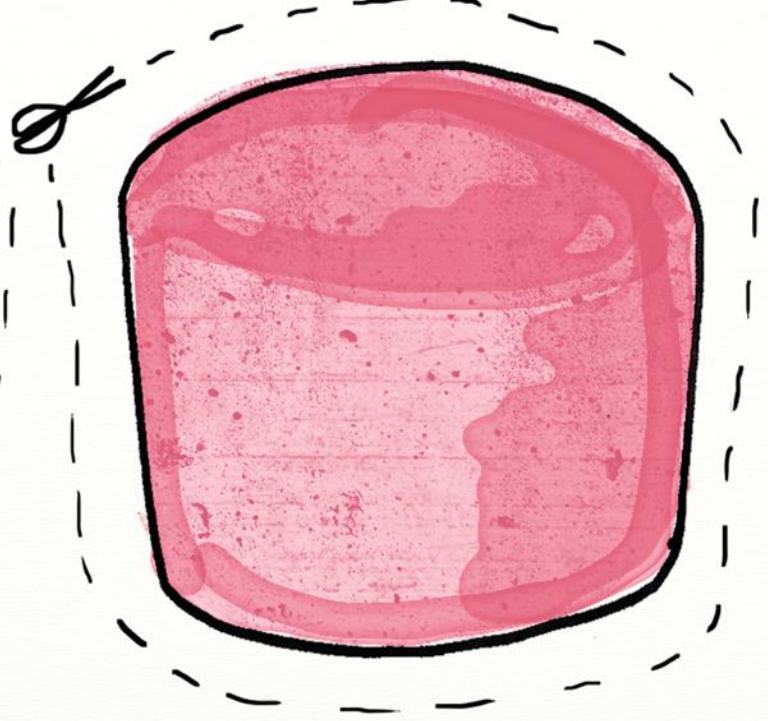

If you enjoyed this little freebie, please feel free to share the link with friends/family! :) Happy baking!
